NEWS

Setting New Standards for a Transforming Industry

In this piece, originally published in the February 2017 issue of Electroindustry, Amy Huntington, Philips Lighting CEO, Market Group Americas, talks about a new class of standards vital to the move towards lighting data enabled services. [Full article.](#)

Daylight Management Opens the Window to Comfort & Energy Efficiency

In this article, Konstantinos Papamichael, PhD, Professor, Department of Design and Co-Director, California Lighting Technology Center, University of California, introduces us to the concept of Daylight Management. Daylight management is an emerging term referring to strategies and technologies for controlling daylight penetration in interior spaces through windows, clerestories, skylights. [Full Article.](#)
