# NETWORK SOLUTIONS FOR THE PLANT FLOOR

Knowledge is power. Embracing Ethernet/IP networking solutions on your plant floor offers you the opportunity to continue leveraging standards based technology while providing for seamless sharing of critical data between the plant floor and the front office, reducing risk and increasing strategic response.

Ethernet network deployment has been rapidly expanding to the plant floor with the embracement of this technology in all things automation. Harnessing the explosion of the data this provides has proven to be the next big challenge for operations and plant managers.

Rumsey can help you leverage this opportunity and manage your existing Ethernet/IP infrastructure and/or move legacy plant floor networks to Ethernet/IP. Our experts combine industry leading products with the latest technology and best-practices to make your transition seamless and worry-free.

## Training:

Rumsey offers many different training opportunities for your technology investment. We provide web-based, on-demand, classroom, and private trainings. Some of our available trainings include:

- Industrial Ethernet Fundamentals
- Network design best practices
- Reference architect basics
- Cybersecurity Principles using Defense in Depth
- Designing Physical Network Infrastructures
- Fiber/copper termination training

## Services:

Rumsey is the leading provider of automation products in the region and has now expanded our expertise into networking solutions. Our experts can help you create, design, and implement the right applications and products for your business need. Our delivered or partnered services include:

- Fiber/copper physical network design
- Logical network architecture design
- Network design assessment
- Network performance assessment
- Wireless design / site surveys
- Switch configuration and IP schema design
- Server virtualization
- Bid packages

# PRODUCTS

## Cabling Infrastructure

- Ethernet Copper Cat 5e & Cat 6 Patch cables
- Ethernet Fiber Patch Cables
- Bulk Copper and Fiber Ethernet Cable
- Profinet Cable
- Modular Plugs
- Faceplates and Mount Boxes
- DIN Rail & Panel Mount Patch Panels
- Wall & Free Standing Data/Server Cabinets and Racks
- Preconfigured Industrial Zone Network Cabinet Solutions
- Preconfigured Industrial Data Center Cabinet Solutions
- Scalable UPS Solutions
- Wire Management
- Crip, Stripper, Punchdown, and Connector Tools

## Wired Network Infrastructure

- Unmanaged, Lightly Managed, Managed Industrial Switches
- Unmanaged & Managed IP67 Switches
- Unmanaged & Managed 19" Rack Mount Switches
- Unmanaged & Managed Enterprise Grade Switches & Routers
- Industrial Routers
- Serial and Legacy Protocol Network Devices & Bridges

## Wireless Infrastructure Technology

- Cellular WLAN/WAN Gateway Solutions
- Point to Point and Mesh Industrial Wireless Access Points
- Wireless Clients and Controllers
- Antennas
- Wireless I/O

## Network Management

- Copper and Fiber Cable
- Certifiers and Troubleshooting Devices
- Industrial Network Visualization
- Management Software and Solutions

## Network Security & Remote Access

- Industrial Layer 2 Firewalls
- Industrial Layer 3 Security Routers/VPNs
- Remote Access Solutions for Monitoring, Management or Troubleshooting

## Network Services

- Industrial Network Assessments
- Industrial Network Engineering & Detailed Design
- Security Assessments
- Network Installation Certifications

## Servers/Virtualization

- Fault Tolerant Servers
- Virtualization Solutions & Licensing
- Storage Area Networks SANS
