This instructor-led class is designed for new users with little to no programming experience with RSLogix 5000/Studio 5000 or FactoryTalk View Studio. Attendees will be walked through a hands-on lab, sharing a computer, to experience creating PLC and HMI programs working through its process while utilizing the customized lab.

Topics covered at minimum:

- Programming & Hardware Features
- Tasks of automation
- Creating tags
- Linking tags to hardware
- Configuring communications pathways
- Basic troubleshooting
- Demonstrations of Best Practices, ADC, remote connection to a PanelView Plus.
